

Elaband Crystal PDRN + Snow Spicule Cream Usage Guide

Customized Usage by Skin Type

✓How to Use

- 1
- After cleansing, apply an appropriate amount to your face as the first step of your skincare routine.
- 2
- Massage in circular motions until absorbed, then gently press with your palms to finish.
- 3
- Adjust the amount and frequency according to your preference. Apply sufficient moisturizer after use and sun protection when going outside.
- 4
- Mild products can be used with other strengths, but do not use highly concentrated products simultaneously.

⚠️Essential Precautions

- ✖

Do Not Use with Devices
Avoid using with LED masks or skincare devices as heat, light, or stimulation can damage skin
- ✖

Avoid After Dermatological Procedures
Wait until skin has fully recovered after treatments before using
- ✔

Patch Test for Sensitive Skin
Test on a small area like behind the ear or inner arm before full application
- ✖

Avoid Wounded Areas
Do not apply to broken or injured skin
