HYDRO DOT TEA TREE

All-in-One Intensive Trouble Care Patch

Formulated with high-concentration tea tree oil to quickly soothe irritated skin and target visible blemishes. The ultra-thin hydrocolloid sheet absorbs exudate to prevent inflammation and scarring, while providing invisible coverage even over makeup for confident all-day wear.

★ Key Features

 0.2% High-Concentration Tea Tree Oil
Intensive blemish care

 Ultra-Thin Transparent Hydrocolloid
0.3mm thickness for natural adherence

 Simultaneous Absorption &
Coverage
Exudate absorption with natural
concealment

 Waterproof & High Adhesion
Maintains adhesion during cleansing and
activities

● Buyer Appeal Points

- ✓ Made in Korea
- ✓ Patented dome design for enhanced adhesion during activity
- ✓ Eraser-like patches quickly soothe and conceal blemishes

● Product Specifications

 23dots / 1 Pack

 Diameter: 10mm / 12mm

 Thickness: 0.3mm

 Water proof

● Target Applications

 Troubled Skin

 Sensitive Skin

 Spot Intensive Care

 Over Makeup Use

MICRO NEEDLE PATCH

TDDS Patented Micro-Needle Patch (280µm)

Utilizing advanced TDDS (Transdermal Drug Delivery System) technology, this high-performance spot care patch features precision-engineered 280 µm micro-needles that effectively penetrate the stratum corneum to deliver active ingredients deep into the skin. Upon contact with skin moisture, the needles naturally dissolve, maximizing absorption and efficacy.

★ Key Features

Ultra-Precise Needle Tips

Consistent 280µm height with uniform shape

Patented Segmented Design

Patent No.10-2583795 for optimal dispersion

Vacuum Casting Process

Active ingredients fill the entire needle

Water-Soluble Needles

Naturally dissolving for maximum absorption

✓ Buyer Appeal Points

- ✓ Superior technical advantage: consistent needle height vs. competitors' up to 290% deviation
- ✓ Individual blister packaging ensures hygiene and stability
- ✓ Cost-effective production with premium quality and scientifically proven efficacy

📋 Product Specifications

6ea / 1 Pack, 12ea / 1 Pack

Diameter: 18mm patch

Height: 280µm needle

Patented Technology

◎ Target Applications

Acne Care

Sensitive Areas

Intensive Calming

Deep Delivery

Crystal PDRN+ Snow Spicule Cream MILD

Low-Irritation Daily Spicule Cream

This gentle cream contains 1 million micro-spicules with a soft texture, making it ideal for daily use and first-time users. The 2nd generation Centella-derived PDRN is encapsulated in 3D hyaluronic acid, providing gradual and continuous release onto the skin for sustained soothing, moisturizing, and barrier restoration effects.

★ Key Features

1,000,000 Micro-Spicules

Gentle stimulation for daily skin regeneration

15-Step Purification Process

High-purity penetration technology

✓ Buyer Appeal Points

- ✓ Highest spicule count (1M) for gentle daily care - 3x more than competitors
- ✓ Nature-derived 2nd generation PDRN with 3D hyaluronic acid sustained release
- ✓ EWG All Green ingredients ensure safety for even the most sensitive skin
